DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/17/06 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 22 is rejected under 35 U.S.C. 102(e) as being anticipated by Fang et al. (2003/0104126).

Fang et al. disclose: (a) positioning the substrate in the reaction chamber; (b) exposing the substrate to a boron-containing species to form a boron-containing layer ([0020] and [0023]); (c) contacting the boron-containing layer with a tungsten-containing precursor to form a tungsten nucleation layer ([0026]); (d) depositing a bulk tungsten

layer over the tungsten nucleation layer to form the tungsten film ([0057]); and further comprising repeating (b) and (c) prior to (d) (See [0023] and [0026]).

Allowable Subject Matter

Claims 1-21 and 23-33 are allowed.
